Heart of New Ulm's Smart Bicycling Tips

- Always wear a helmet to protect your head** – Most bike-related deaths are the result of a severe brain injury.
- Always be visible** – Install front and rear lights on your bike. They're especially helpful when it's darker outside.
- Go with the flow** – Ride with the flow of traffic, not against it.
- Be predictable** – Use arm signals to let other people on the road know what you are going to do. This helps everyone be safer on the road.
- Obey all traffic laws** – This makes the road safer for everyone.
- 'Drive' your bike** – Ride in the right 1/3 of the traffic lane when you can.
- Be alert** – Be a defensive 'driver' and do not listen to music or use your cell phone.
- Practice bike readiness** – Make sure your bicycle is in good working order every time you ride.
